

FOURTH GRADE NEWS **FOR THE SUMMER OF 2018**

CONGRATULATIONS!!! You made it through fourth grade!

I am so proud of all the fourth graders who worked so hard and achieved so much this year!

I know each of you have great learning potentials, and I'm praying that fifth grade will be a positive learning experience. To help, I've compiled some helpful hints!

- **Be Ready for Math!**
When it comes to math, I always think of the old saying, "If you don't use it, you'll lose it." So, keep working on mastering those math facts and concepts! There are wonderful websites to visit, just refer to the ones listed on Cornerstone's home page.
- **READ!!!**
I can't emphasize enough the importance of reading each day! Visit your local library often, and see if they have a summer reading program.
If you are traveling, books can be down loaded, or libraries have many books on CD. Read the same book as a friend, and then share your reading experience with each other. Try reading a book that's been made into a movie, and then watch the movie. Compare and contrast the two.
Don't forget to include time reading the Bible, especially since it is filled with so many amazing adventure stories!!!
- **Writing!**
I know, I know, writing is not a pleasurable experience for most, but it is really important to keep your skills sharp.
Try keeping a journal or diary that includes writing about special events or trips.
Write letters to friends and/or relatives.
Write a short play or skit to act out with friends.
Write down your response to a book you've read.
Just keep writing!!!
- **PRAY!!!**
Don't forget that God is never on vacation! Spend time each day praying for your family, friends, country, and school.

May God bless you with a restful, fun-filled summer!!!
